

COFFEE-BIKE GMBH - THIS IS US!

GOOD COFFEE FROM INDIA TO INGOLSTADT!

The Coffee-Bike GmbH is one of Europe's largest franchise systems in the mobile coffee catering sector, with **more than 250 rolling cafés in 13 countries worldwide.**

Since our founding in 2010, we have perfected the concept of **mobile and self-sufficient coffee bars** and successfully established them in numerous metropolises around the globe.

Our vision has always been to delight our customers every day anew with **high-quality coffee specialities** even in the most remote places of the world.

OUR SUCCESS STORY

2010

The cornerstone of our concept for success was a holiday trip to Denmark. This was the place, where our founders discovered a coffee seller who offered filter coffee from a pump jug on the luggage rack of his bicycle. The **idea for the Coffee-Bike** was born.

The first Coffee-Bike was laboriously handcrafted in the garage at home. To date we have invested more than **1 million euros in development and innovation costs** to advance our mobile coffee bar continuously.

One year after company foundation four self-operated Coffee-Bikes were transformed into a **multi-award-winning franchise concept**, which we have expanded to the present day with around 250 bikes in 13 countries worldwide.

Whether it's **sustainable cup alternatives, international expansion** or the **further development of our product portfolio** – at Coffee-Bike headquarters we are constantly working on optimizing and enhancing our vision of self-sufficient and mobile coffee bars.

2020

10 years of Coffee-Bike stand for more than 300 Coffee-Bikes built in Osnabrück and around 40 million coffee specialities sold worldwide. With a decade of company history our successful concept is one of Europe's big players in the mobile coffee catering sector.

2023

We are always looking for motivated visionaries and coffee lovers who want to fulfil their **dream of self-employment** with a Coffee-Bike. Take the chance and write your own success story with a mobile coffee bar.

HERE'S WHAT WE STAND FOR

We always have a sense for the needs of tomorrow. This creates special solutions that we take out into the world with our team of **40 experts at our HQ (Osnabrück)**, local office (London) and with our partners.

The **quality of our products** – whose fabrication and preparation are carried out with responsibility for our society and with great environmental awareness – always has the highest priority in our daily business.

Partnership and a passion for coffee are the values that unite us. After all, we live and love what we do. Every single Coffee-Bike, every coffee speciality and every barista stands for the best possible service and high-quality enjoyment at almost any location.

OUR SERVICES & PRODUCTS

PROFESSIONAL FRANCHISOR

The Coffee-Bike GmbH is one of the largest coffee franchise systems in Europe. Our franchise partners enjoy entrepreneurial freedom and at the same time benefit from the know-how and security of an established brand. As a strong partner behind you and with a low initial investment we can fulfil your dream of independence with your own café on wheels together.

HIGH QUALITY COFFEE & ESPRESSO BEANS

The certified organic coffee and espresso beans of our house brand Caferino ensure the original Coffee-Bike taste both on our numerous Coffee-Bikes and in the homes of our customers. Gently refined in the traditional long-term roasting process, the Caferino beans develop their full aroma and make every freshly brewed coffee specialty a real pleasure.
