

THE MOBILE COFFEE BAR ON WHEELS

*completely assembled

in retracted position:

1,75 m (Height)

3,08 m (Length)

1,24 m (Width)

1 | RETRACTABLE ROOF

The roof is a Coffee-Bike trademark. It is height-adjustable, fireproof, washable and protects the bike from the weather.

4 | CAFERINO BEANS

Caferino espresso beans made from 70 % Arabica and 30 % Robusta as well as coffee beans made from 100 % Arabica as a gift or to drink at home.

7 | SYRUP HOLDER

A holder for the standard syrups used in drinks of our core product portfolio. These are caramel and mint as well as cherry and amaretto.

2 | SIDE PRODUCT DISPLAY

A multi-level, transparent display case for muffins, cookies and other pastries as well as Tea and Hot Chocolate.

5 | COFFEE-BIKE BRANDING

Each Coffee-Bike has logo imprints on the roof, the portafilter machine, the wooden frame and on various utensils.

8 | „GRIND ON DEMAND“ MILL

The espresso beans are freshly ground in the mill at the touch of a button and under the eyes of our customers.

3 | SUGAR BOARD

Drinks are handed out at the sugar board. This is where customers can find utensils such as sugar, milk and lids for self-service.

6 | ADVERTISING DISPLAYS

A transparent flyer and business card holder, which can be equipped with a variety of information materials for customers to take away.

9 | POSTER FRAMES

The frames serve as advertising space for Coffee-Bike posters and branded posters from catering customers.

KEY FACTS

- Outdoors, the bike is self-sufficient and ready for use for up to 18 hours
- Indoors, the Coffee-Bike only needs a 230 Volt power socket
- The mobile coffee bar comes with a CE marking
- More Info: coffee-bike.com/en/our-products/the-coffee-bike

450 kg
Total weight

1 | PORTAFILTER MACHINE

The exclusive, 2-group manual lever portafilter machine enables the simultaneous preparation of up to four Espressi.

4 | DOUBLE WASHBASINS

Two washbasins to current hygiene standards without external water connection accompanied by a towel holder and a soap dispenser.

7 | SADDLE & PARKING BRAKE

A comfortable, sprung retro saddle as well as a handbrake for the front wheels and a parking brake for the rear wheel.

2 | ORANGE JUICE PRESS

The press can be used to freshly squeeze orange juice in summer and to prepare Hot Lemon and Orange in winter.

5 | STORAGE SPACE

Storage areas inside for milk & milk alternatives and holders for sauces and other materials on the outside.

8 | TRANSPORT BOX

The box provides storage space for transporting consumables and supplies (e.g. cups, coffee beans or syrups).

3 | CUP DISPENSER

A space-saving holder for the up to 100 % recyclable paper cups with 200 ml, 300 ml and 400 ml fill volumes.

6 | ELECTRIC MOTOR (OPTIONAL)

An approved, roadworthy and throttled pedelec motor with three gears and a rechargeable battery.

9 | POSTER FRAMES

The frames serve as advertising space for Coffee-Bike posters and branded posters from catering customers.
